- PROSPECTUS

NAUVOO NEIGHBOR

THE Napvon Neighbor will be dev information, canobling principles and polineal near cas flow to the world of
mankad. Every individual desérous to
cerure the et cition of Gen. Smith, should
use every effort in his power to produce
so great a member of subscribers to the
Neighbor as possible. We wish to send
a moy severy district, etty, villege and hamtest intoughout the lineigh and breadth of
the Union, and we look with confidence
to our frieids abroad to assin us by forwarding the names of all the subscribers
they possibly one prepare. We have a
great and mighty object before us; as almon, energy and univing indexity of
all, will effect its glorique coesummenton.
These of copes, one gifters.

MESSAGE FROM PRESIDENT TYLER TO THE U.S. STATES, RELATIVE TO THE MESSENGER TO MEXICO.

TO THE MESSINGER TO MEMICO. To the Senate of the U. States:
In a nawer to the resolution of the same of the 13th instant, requesting to be informed "whither a messenger has been and to Messico, with a riew to obtain her consent to the treaty with Texas, and, if an its commissional to the senate a copy of the desputches of which he is the beer-or and a copy of the instructions given of the despatches of which he is the best-or and a copy of the instructions given to said measurings; and also to informathe scantal within what time and measurings is expected to return." I have to say, that an measuring r has been sent to Mex-tro in order to obtain her consent to the to in order to obtain her consent to the treaty with Texas, it not being regarded by the executive as in any degree requiritie to obtain such consent in order (should the sensite railty the treaty) to prefet the title of the U. States to the territory thus ille of the U. States to the territory flus acquired—the tile to the same being full and perfect without the assent of eny thrid power. The executive has magnitude with Texas as an independent power of the world, long since recognized essuch by the U. States and other powers, and as subordinate in all the rights of full sowereignty to no other power. A measurement with the control of the despetch already communicated to the senting and the three ed to Mr. Green, and forms a part or un decuments, endered confidentially to be printed to the wood it the spatial. Task deepatch was dictated by e design to pre-serve the peace of the two couptries, by denying to Mexico all pretext for a sum-ing a belligerent attitude to the United denying to Mexico all pretext for assuming a belligerent attitude to the United States, as she had threatened to do in the event of the annexation of Texas to the United States, by the despatch of her Go United States, by the despatch of her Go-'sernment with was communicated by me to congress at the opening of its pre-scate session. The messenger is expected to return before the 15th of Juse next, but he may be detained to a later day. The recently appointed envey from the United States to Sevice will be sent so keen as the final action is link J on the ques-tion of annexation, at which time, so a not before, commissioner to be under-standingly prepared.

JOHN TYLER. Washington, May 15th, 1944.

Hermitage, March 11, 1844.

The present golden moment to obtain
Texas must not be lost, or Texas must
from necessity to thrown into the arms "The present golden moment to obtain from mecessity the thrown first that arms from necessity the thrown first that arms for England, and be forever loat to the United States! Need I call your attention to the attention of the United States and the state of the United States and the state of the state o

REASON MAKES US MEN.

Nothing is better calculated to exall men, than, in the mist of vexauons, adversity, poverty, or passions, to use reason. The collisions of cassion, should always be colled by reason; then the 'sober second thought', brings us to reflect and wisdom directs the mind, not be the comfort and happiness of one, but all. Under such a course of meditation, we have thought it advisable to re-publish a few of the Resolves and orders of the Carthagenian, Warsaw-earier, &c., for the purpose of mobbing, plundering, murderings, and durferly extentistic, the Latter day Saints. Among a multiplicity of other beligherent and other unchristian, un-American, and step unchristian, the following are specificens:
"Resolved, That we hold ourselves at all times in readiness to co-operate with the control of the cont I men, than, in the midst of vexa-

at all times in readiness to co-operate with our fellow-citizens in this State. utterly extermidate, the wicked and

thors of our troubles.

"Resolved: That a committee of five "Resolved, That a committee of five be appointed forthwith to notify all persons in our township suspected of being the tools of the Prophet, to leave immediately on pain of instant ven-geance. And we do redommend the submittants of the adjacent townships to do the ame, hereby bedging our-solves to render all the assistance they may require.

solves to render all the assistance they may require.

"Resolved, That the time, in our opinion has arrived, when the adherents of Smith, as a body, should be driven from the surrounding estiments, into Nauvoo. That the Prophet and his mascreant adherents, should then be demanded at their hands, and if not recondered, a way of a termination. demanded at their hands, and if toot surrendered, a war of extermination should be waged, to their entire deturation, if necessary for our protection, of his adherents. And we do hereby recommend this resolution to the consideration of the every in the consideration of the every held at Carthage; hereby pledging-ourselves in aid, to the ulmgst, complete consumation of the object, in view, that we may thereby be uterly relieved of the slarm, axisity, and trouble, to which we are anneal subjected."

"Utter'y exterminate?" and "enth destruction, if necessary," are so much above the profession of freemen, and terms of ealightened nations, that we shall keeve a caddid community to judge what eort of stuff the "Mass terms of anlightened nations, that we hall steve it candid community to judge what eart of stuff the "Minas Convention" of Carthage, Warsaw and the other allied power's were composed of; which of the 13th and 14th and 1

salaratus is at least new to us, and we therefore pullishet, although it myny one be a new ingredient in the recipe to others. In (Gneinhatt, where large quantifics of hams are one utilly direct perper, ellipsice, cloves, suturege, cinamon, similar of the case suturege, cinamon, similar of the case suturege, considered the coarse salt, hay on the hams with the amough are similar direct sutured to the case in th red. The hams should remain an skele nt least three months, and a longer time would do them no harder Agriculturist.

harm.—Anter Agriculturist.

Bottrae Wirmout Gunnivo.—The Stamford (Eng.) Mercury says, that a cow belonging to Mr. Smith of that place, has been regularly milked for the last twieter months; but during the last thirteen weeks after standing for two meals as usual the oteam when taken off has changed gradually to butter, without the assistance of charm of any description, and when made upseconsider firmer than any other butter at this season of the year. Strange as this may appear it is an indignitable fact.

Current.—We have noticed that considerable have been and of late, in recommendation of the growing of currants as standards or trees. We have heard it said that the frust would be much larger more picity, and off better flavor. Such however, has not been the result of our observation. We took notice of them in several gardens had seaton, where they were cultivated in both ways, and in every instance the experiment ways greatly-in fevor of the eld fashioted melitid oil bush growing. When they are cultivated as trees, as the sain and sir have from access to hiem, the fruit will rips centrier. But the currant seems to be load of mousture, which in the latter is too soon evaporated. We nelled disparently of the produced law the sain that the currant seems to be a soon expended. We nelled disparently in the sain of the sain that the sain that the sain of the sain

tlestroy Bed Rugs.—As the hot on approaches, there will be desperented avoirs on the part of the vermines to extend their settlements. Nor endeavors on the part of the vermin tools to extend their settlements. Nor I downestic affairs be at all neglected them. But as their interests general clash with those of the tenants of dings, closels, and particularly of is, a contest for superionity frequently is, a contest for superionity frequently initial to be armed with proper attpiction, as on that the success of war only depends. Hot water, pepper, and, as on that the success of war only depends. Hot water, pepper, which was not to be an extended to the state of the state

oung Poultry.—A correspondent of Massachusetts Floughman gives the witiges his mote of risining tarkeys, analyshes them under, high sexcepting associal continuing the saying, which is more considerable than the same of the to the policy meal (wo or three storms) with a little meal—whe lixed with child meal (wo or three storms).

prefera the black ores are so teeder that it is ain e to raise them.
